

SHRUB
JUNIPER

Fire Safe Treatment:
Remove entire plant or remove any dead parts that are inside the plant.

SHRUB
FRENCH BROOM

Fire Safe Treatment:
Remove entire plant including roots, best done when soil is moist from rain.

TREE
MONTEREY PINE

Fire Safe Treatment
Trim low hanging branches up to 10 feet.

TALL GRASS
PAMPAS GRASS

Fire Safe Treatment:
Remove entire plant. First remove seed heads, avoid spreading seeds. Dig up.

TREE
BLUE GUM EUCALYPTUS

Fire Safe Treatment:
Trim lower branches up to 10 feet, clean up shedding bark.

OUR ROLE is to help residents and agencies in Alameda and Contra Costa Counties combine their resources to prepare for the next wildfire and to reduce the potential damage.
